

**DRAFT Monterey Bay Region
Metropolitan Transportation Improvement Program
(MTIP)
FFY 2024-25 to FFY 2027-28**

Prepared by: Association of Monterey Bay Area Governments
(AMBAG)
in collaboration with

Santa Cruz County Regional Transportation Commission
Transportation Agency for Monterey County
Council of San Benito County Governments
Monterey-Salinas Transit
Santa Cruz Metropolitan Transit District
California Department of Transportation

Adoption Date: September 11, 2024

Appendix H: Public Review and Comments	

ACRONYM GUIDE

This guide lists agency, program, procedure, and fund source acronyms found in the text of this document.

ATP	Active Transportation Program (State and federal fund source)
AMBAG	Association of Monterey Bay Area Governments (federally-designated MPO for the Monterey Bay region)
CRP	Carbon Reduction Program (federal fund source)
CTC	California Transportation Commission
CTIPS	California Transportation Improvement Program System (Caltrans MTIP/FTIP programming database)
EIR	Environmental Impact Report
EPA	Environmental Protection Agency (U.S.)
EPSP	Expedited Project Selection Procedures
ER	Emergency Repair (federal fund source)
FAST Act	Fixing America's Surface Transportation Act
FHWA	Federal Highway Administration
FHWA PL	FHWA Metropolitan Planning (federal fund source)
FTA	Federal Transit Administration
FTA 5303	FTA grant program for metropolitan planning (federal fund source)
FTA 5307	FTA formula grant program for urban transit operating and capital (federal fund source)
FTA 5309	FTA discretionary grant program for transit-related purchases (federal fund source)
FTA 5310	FTA grant program for paratransit providers (federal fund source)
FTA 5311	FTA grant program for rural bus operating and capital (federal fund source)
FTA 5311 F	FTA grant program for intercity bus service (federal fund source)
HBRR	Highway Bridge Replacement and Rehabilitation Program (federal fund source)
IIJA	Infrastructure Investment and Jobs Act
IIP	Interregional Transportation Improvement Program (fund source and Caltrans STIP candidate list)
LOCAL	Local Funds (local fund source, including Transportation Development Act, transit fares, transit sales tax, other sales tax, developer fees, etc.)
LTA	San Benito County Local Transportation Authority
MAP-21	Moving Ahead for Progress in the 21st Century (transportation legislation reauthorizing surface transportation programs through fiscal year 2014)

MPO	Metropolitan Planning Organization (federally designated agency responsible for metropolitan planning in urbanized areas)
MST	Monterey-Salinas Transit
MTP	Metropolitan Transportation Plan
OWP	Overall Work Program
RIP	Regional Improvement Program (fund source from STIP)
RSTP	Regional Surface Transportation Program (federal fund source)
RTP	Regional Transportation Plan (at a minimum, 20-year transportation plan prepared by state-designated RTPAs)
RTPA	Regional Transportation Planning Agency
SBtCOG	Council of San Benito County Governments (state-designated RTPA for San Benito County)
SCCRTC	Santa Cruz County Regional Transportation Commission (state-designated RTPA for Santa Cruz County)
SCMTD	Santa Cruz Metropolitan Transit District
SCS	Sustainable Communities Strategy
SHOPP	State Highway Operation and Protection Program (program/state fund source)
S RTP	Short-Range Transit Plan (5-year plan developed by transit operators)
STA	State Transit Assistance (state fund source)
STIP	State Transportation Improvement Program (program used in funding tables to indicate either ITIP or RIP funds)
STP	Surface Transportation Program (federal fund source, state equivalent to regional STP)
STPL	STP funds exchanged for nonfederal funds
TAMC	Transportation Agency for Monterey County (state-designated RTPA for Monterey County)
TCRP	Transportation Congestion Relief Program (state fund source)
TDM	Transportation Demand Management
TIP	Transportation Improvement Program
U.S. DOT	United States Department of Transportation

Chapter I: Executive Summary

In response to requirements pursuant to its designation as a Metropolitan Planning Organization (MPO), the Association of Monterey Bay Area Governments (AMBAG) prepares transportation plans and programs for the tri-county, Monterey Bay region consisting of Monterey, San Benito, and Santa Cruz Counties. The Metropolitan Transportation Improvement Program (MTIP) for FFY 2024-25 to FFY 2027-28 is a four-year transportation programming/funding document that consists of transportation projects for the region and covers the federal fiscal years from October 1, 2024 through September 30, 2028. The MTIP implements region's the 2045 Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS). The 2045 MTP/SCS is 20 plus-year metropolitan transportation plan adopted by the AMBAG Board on June 15, 2022. The 2045 MTP/SCS was developed under the Fixing America's Surface Transportation (FAST) Act.

On December 4, 2015, President Obama signed the FAST Act (Pub. L. No. 114-94) into law. The FAST Act was the first federal law in over a decade to provide long-term funding certainty for surface transportation infrastructure planning and investment. The FAST Act authorized \$305 billion over fiscal years 2016 through 2020 for highway, highway and motor vehicle safety, public transportation, motor carrier safety, hazardous materials safety, rail, and research, technology, and statistics programs. The FAST Act maintains focus on safety, keeps intact the established structure of the various highway-related programs we manage, continues efforts to streamline project delivery and, for the first time, provides a dedicated source of federal dollars for freight projects.

In 2020, the FAST Act was reauthorized until September 2021. In September 2021, the Fixing America's Surface Transportation Act (FAST Act) expired. The Infrastructure Investment and Jobs Act (IIJA), aka Bipartisan Infrastructure Law (BIL), was signed into law by President Biden on November 15, 2021 and is expected to increase funding for transportation. Under IIJA, California is estimated to receive \$25.3 billion for federal-aid highway apportioned programs over five years, \$4.2 billion over five years from a new bridge program; \$384 million over five years from a new program to support the expansion of an electric vehicle (EV) charging network; and \$9.45 billion over five years to improve public transportation options across the state. The IIJA also creates new transportation discretionary grant programs and increases funding for existing discretionary grant programs between FY 2022 and FY 2026.

Performance Measures

AMBAG's 2035 MTP/SCS began the process and the 2040 and 2045 MTP/SCS further developed and monitor performance measures for the Monterey Bay Region, as per MAP-21 requirements. MAP-21 transforms the Federal aid highway program and the Federal transit program by requiring a transition to a performance-driven, outcome-based program that provides for a greater level of

transparency and accountability, improved project decision making, and more efficient investment of federal, state, and local transportation funds. The FHWA and FTA establish national performance measures in key areas, including safety, infrastructure condition, congestion, system reliability, emissions, and freight movement. States, MPOs and providers of public transportation are required to use these measures to establish targets in these key national performance areas to document expectations for future performance. The proposed regulatory changes mandate States and MPOs to coordinate their targets with each other to ensure consistency, to the maximum extent practicable. In addition, for transit-related targets States and MPOs would need to coordinate their targets relating to safety and state of good repair with providers of public transportation to ensure consistency with other performance-based provisions applicable to transit providers, to the maximum extent practicable.

Preparation of this MTIP

This MTIP was prepared in cooperation and consultation with staff from the following agencies:

- California Department of Transportation (Caltrans)
- Council of San Benito County Governments (SBtCOG)
- Monterey-Salinas Transit (MST)
- San Benito County Local Transportation Authority (LTA)
- Santa Cruz County Regional Transportation Commission (SCCRTC)
- Santa Cruz Metropolitan Transit District (SCMTD)
- Transportation Agency for Monterey County (TAMC)
- Local jurisdictions and transportation stakeholders

Projects included in this MTIP are consistent with the region's long range transportation plan, the 2045 MTP/SCS, recent Short Range Transit Plans (SRTPs) of the public transit operators, Regional Transportation Improvement Programs (RTIPs) of the three Regional Transportation Planning Agencies (RTPAs), and Caltrans' 2024 State Transportation Improvement Program (STIP) and 2024 State Highway Operation and Protection Program (SHOPP).

Process of Adoption for this MTIP

Federal statute 23 U.S.C. 450.324 outlines the process AMBAG must follow when developing and adopting the MTIP. After interagency consultation and public review/comments/hearing, the AMBAG Board of Directors is required to adopt the MTIP. The MTIP is then submitted to Caltrans, the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) for their approval and incorporation into the Federal Statewide Transportation Improvement Program (FSTIP). As the Monterey Bay Region is in attainment status for air quality, this MTIP does not

require an air quality conformity determination in accordance with the Clean Air Act requirements and EPA's transportation conformity regulation (40 CFR, Part 93.)

Highlights

AMBAG, as an MPO, is required by state and federal laws to develop and adopt an MTIP. The MTIP is a multi-million dollar, multi-year programming document of proposed projects, which includes multi-modal projects, including but not limited to major highway, arterial, bridges, transit, Zero Emission Vehicles (ZEV), Electric Charging infrastructure and bike – ped projects.

The MTIP addresses the requirements under the Infrastructure Investment and Jobs Act (IIJA) Act, the current federal transportation authorization act.

The MTIP covers four federal fiscal years, FFY 2024-25 through FFY 2027-28, and is updated every other year.

This MTIP includes 105 transportation projects, including several region wide grouped projects for certain program categories, such as State Highway Maintenance, SHOPP, Bridge, Active Transportation, Transportation Enhancement Activities, Transit Operations and Maintenance projects, and Highway Safety.

As shown below in Table 1 the MTIP includes committed federal, state, and local funding of approximately \$1.61 billion during the 4-year MTIP period.

Table 1 – MTIP: FFY 2024-25 to FFY 2027-28 – Funding by Source

Year	Funding Source (\$ in 1,000s)			
	Local	State	Federal	Total
2024/25	\$163,580	\$377,306	\$52,460	\$593,346
2025/26	\$131,077	\$352,134	\$161,178	\$644,389
2026/27	\$71,783	\$195,429	\$25,877	\$293,089
2027/28	\$45,456	\$13,198	\$22,229	\$80,883
Total \$	\$411,896	\$938,067	\$261,744	\$1,611,707
% of Total	25.56%	58.20%	16.24%	100%

Table 2 – Distribution of the MTIP: FFY 2024-25 to FFY 2027-28 Funding by County

Amount Programmed per County, \$			
Monterey County	San Benito County	Santa Cruz County	Total
\$1,181,873	\$49,458	\$380,376	\$1,611,707
73.33%	3.07%	23.60%	100%

Table 3 – AMBAG MTIP Project by County (projects in grouped listings shown individually)

Number of Projects			
Monterey County	San Benito County	Santa Cruz County	Total
51	10	44	105
48.57%	9.52%	41.90%	100%

Amendments to the adopted MTIP

At a minimum, federal regulations require the MTIP to be updated at least every four years. Projects or phases of projects obligated in a prior MTIP do not need to be re-listed in this MTIP. Between two updates, MPOs can amend the MTIP as needed. AMBAG processes formal amendments to the MTIP on a quarterly schedule or more often, if warranted by special circumstances. Administrative modifications to the MTIP are processed for minor program revisions. On February 12, 2020, the AMBAG Board elected to accept from Caltrans the authority to approve Administrative Modifications to the MTIP/FSTIP under the revised MTIP/FSTIP Amendment and Administrative Modification Procedures, and to delegate this authority to the AMBAG Executive Director.

MTIP Adoption Schedule

The final MTIP is scheduled for adoption at the **September 11, 2024**, AMBAG Board of Directors meeting. Appendix G includes a copy of the Draft Resolution of the Board of Directors of the Association of Monterey Bay Area Governments Adopting the MTIP for FFY 2024-25 to FFY 2027-28. The complete Draft MTIP is available online at AMBAG's web site: www.ambag.org to view or download. AMBAG released the Draft MTIP for FFY 2024-25 to 2027-28 for **public review and**

comments from August 1, 2024 to August 30, 2024. The Notice of Public Review, Comments and Hearing was published in local newspapers. Copies of the Draft MTIP are also made available for viewing and download at the websites listed below:

1. Association of Monterey Bay Area Governments: www.ambag.org
2. Santa Cruz County Regional Transportation Commission: www.sccrtc.org
3. Transportation Agency for Monterey County: www.tamcmonterey.org
4. Council of San Benito County Governments: www.sanbenitocog.org
5. Monterey-Salinas Transit: www.mst.org
6. Santa Cruz Metropolitan Transit District: www.scmttd.com

Written comments may be submitted to Will Condon, Associate Planner, at **wcondon@ambag.org**.

A public hearing to receive public testimony on this document is set for:

When: Wednesday, August 14, 2024, no sooner than 6:00 p.m. (PDT) during the AMBAG Board of Directors meeting

Where: Monterey Bay Air Resources District, Board Room, 3rd Floor

24580 Silver Cloud Court Monterey, CA 93940

Members of the public and non-voting members may use the following link to join the AMBAG Board of Directors meeting online:

<https://us06web.zoom.us/j/89524881275?pwd=iwAnZURB6N7ViLqguVdp1MC3gUH4js.1>

Persons who wish to address the AMBAG Board of Directors on an item to be considered at this public hearing are asked to submit comments in writing at info@ambag.org by 5:00 pm on Tuesday, August 13, 2024 or provide verbal comments during the public hearing.

The AMBAG MTIP is scheduled for adoption at the **September 11, 2024**, AMBAG Board of Directors meeting.

Chapter II: Background

On December 4, 2015, President Obama signed the Fixing America's Surface Transportation Act (the FAST Act, P.L. 114-094), a five-year authorization of highway, transit, safety, and rail programs. The FAST Act includes approximately \$225 billion in contract authority over five years for the Federal-aid highway program, increasing funding from \$41 billion in federal fiscal year (FFY) 2015 to \$47 billion in FFY 2020 – a 15 percent increase. Approximately half of the increase will support two new freight-related initiatives (the remainder will provide small annual increases in core highway program funding):

- A new National Highway Freight program (FAST Act Section 1116), funded at approximately \$1.2 billion a year that is distributed to the states by formula.
- A new discretionary program for Nationally Significant Freight and Highway Projects (FAST Act section 1105), funded at approximately \$900 million a year.

In 2020, the FAST Act was reauthorized until September 2021. In September 2021, the Fixing America's Surface Transportation Act (FAST Act) expired. As part of negotiations for a multiyear federal infrastructure plan, Congress adopted a new federal transportation act – the Infrastructure Investment and Jobs Act (IIJA) of 2021 – which is expected to increase funding for transportation. Under IIJA, California is estimated to receive \$25.3 billion for federal-aid highway apportioned programs over five years, \$4.2 billion over five years from a new bridge program; \$384 million over five years from a new program to support the expansion of an electric vehicle (EV) charging network; and \$9.45 billion over five years to improve public transportation options across the state. The IIJA also creates new transportation discretionary grant programs and increases funding for existing discretionary grant programs between FY 2022 and FY 2026.

1. Introduction to the Planning Process

The Association of Monterey Bay Area Governments (AMBAG) was organized in 1968 for the purpose of regional collaboration and problem solving. AMBAG was formed as a Joint Powers Authority (JPA) governed by a twenty-four member Board of Directors comprised of elected officials from each city and county within the region. The AMBAG region includes Monterey, San Benito, and Santa Cruz Counties. AMBAG serves as a federally designated Metropolitan Planning Organization (MPO) for the tri-county region and performs federally required metropolitan level transportation planning activities for the region.

In cooperation with the State, AMBAG, as the MPO for the Monterey Bay Region, develops and maintains the Monterey Bay Metropolitan Transportation Improvement Program (MTIP).

Since the 1962 Federal-aid Highway Act, Federal authorizing legislation for expenditure of surface transportation funds has required metropolitan and statewide transportation plans and transportation improvement programs to be developed through a cooperative, continuous, and comprehensive (3–C) planning process.

The Metropolitan Transportation Planning Process

As per the IIJA, metropolitan transportation planning occurs in urbanized areas with a population of 50,000 or greater. An MPO is the policy board of the organization created and designated by the Governor and local officials to carry out the metropolitan planning process in the designated urbanized area. The boundary of the metropolitan planning area covered by the MPO planning process is established by agreement between the Governor and the MPO and, in general, encompasses the current urbanized area and the area to be urbanized during a 20-year forecast period.

An MPO establishes the goals, policies, and investment priorities of federal transportation funds in its metropolitan areas through the metropolitan transportation plan and TIP. Each MPO, regardless of size, must prepare a metropolitan transportation plan and update it every four years. The plan must cover at least a 20-year planning horizon at the time of adoption by the MPO. Before it adopts its plan, the MPO must provide a reasonable opportunity for the general public and stakeholders to comment on the plan's content. As part of public engagement, FHWA and FTA encourage MPOs to include minority and low-income populations and otherwise incorporate environmental justice principles into the metropolitan planning process and documents as appropriate.

AMBAG also develops and updates a Public Participation Plan (PPP) to provide guidance to our partner agencies and local jurisdictions in the structuring of regional transportation planning processes to ensure that, to the greatest extent possible, interagency consultation and public participation are an integral and continuing part of the regional transportation planning and decision-making process.

Most recently, the AMBAG PPP was updated in 2023. Through the PPP, AMBAG coordinates the public involvement processes and outreach efforts with its partner agencies, as well as other federal, state, and local agencies to enhance public involvement for regional transportation planning studies, plans, programming document and project planning. Appropriate consultation is undertaken with all local and regional agencies including but not limited to Federal Land Management Agencies (FLMAs) and officials responsible for planning, programming, and implementing activities within the region, as well as state and federal resource management agencies throughout the planning process. AMBAG participates in workshops with federal and state

agencies, such as the California Collaborative Long Range Transportation Plan, to establish and maintain interagency consultation throughout the planning process. Additionally, interagency consultation is conducted through periodic meetings, public notices, and requests for input on the planning process.

The MPO, in cooperation with the State and providers of public transportation, must also develop a Transportation Improvement Program (TIP). The TIP is a prioritized listing/program of multi-modal transportation improvement projects covering a period of four years and must include a financial plan that describes the source of funding that would be reasonably expected to be available to support the projects included in the TIP. The MPO must update and approve the TIP at least once every four years. Prior to approving the TIP, the MPO must provide a reasonable opportunity for public review and comments on the draft TIP. The TIP also is subject to approval by the Governor.

When the MPO submits the TIP to the State, the MPO must certify that the metropolitan transportation planning process is in compliance with applicable federal requirements, as described in Chapter III of this document.

2. Consistency of the MTIP for FFY 2024-25 to FFY 2027-28 with Other Plans and Programs

The MTIP is consistent with and implements several other plans and programs developed regionally. These plans and programs include:

- 2045 Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS), as adopted by the AMBAG Board of Directors on June 15, 2022
- 2024 State Transportation Improvement Program (STIP) Program as adopted by the California Transportation Commission (CTC)
- 2024 State Highway Operation and Protection Program (SHOPP) and Minor Program as adopted by the California Transportation Commission (CTC)
- Regional Transportation Plans (RTP) and Regional Transportation Improvement Programs (RTIP) of the following Regional Transportation Planning Agencies (RTPAs):
 - (1) Council of San Benito County Governments (SBtCOG)
 - (2) Santa Cruz County Regional Transportation Commission (SCCRTC)
 - (3) Transportation Agency for Monterey County (TAMC)
- Short Range Transit Plans (SRTPs) of the transit agencies:
 - (1) Monterey Salinas Transit (MST)
 - (2) Santa Cruz Metropolitan Transit District (SCMTD)

(3) San Benito County Local Transportation Authority (LTA)

The MTIP for FFY 2024-25 to FFY 2027-28 contains projects that expect to be funded between October 1, 2024 and September 30, 2028 and are federally funded and/or regionally significant, and are consistent with the 2045 MTP/SCS. Projects in the above categories can proceed further with implementation only if they are included in the MTIP. In some instances, funding has been listed for outlying years in the Caltrans California Transportation Improvement Program System (CTIPS) database, particularly for dedication of State Transportation Improvement Program funds to those years. In such cases, the funds are included in the MTIP for information only.

Federal Statewide Transportation Improvement Program (FSTIP):

The Caltrans Office of Federal Transportation Management Program is responsible for preparing and managing the Federal Statewide Transportation Improvement Program (FSTIP). The FSTIP is a four-year statewide intermodal program of transportation projects prepared in cooperation with the MPOs, RTPAs, and Caltrans that is consistent with the statewide transportation planning processes, the metropolitan plans and the MTIPs. Once approved by U.S. DOT, the 2025 MTIP will be included in the FSTIP either verbatim, or by reference.

3. Requirements for U.S. DOT (FHWA and FTA) Approval

As per the FAST Act, MPOs are required to develop their TIPs at least once every four years. The TIP needs to be approved by the MPO and the Governor. Each project included in the MTIP must include sufficient description of the project (such as type of work, termini, length, and other similar factors). Also, in developing the MTIP for FFY 2024-25 to FFY 2027-28, AMBAG is required to meet the following principal U.S. DOT requirements for TIP:

1. The MTIP must be **financially constrained**. It must include a financial plan demonstrating the financial constraint analysis by fund types and for each year separately. The financial plan must demonstrate which projects can be implemented using current revenue sources. Only funds that are reasonably available may be included. In the MTIP, in the case of new funding sources, strategies for ensuring their availability shall be identified. In developing the financial analysis, AMBAG takes into account all projects and strategies funded under Title 23, U.S.C. and Title 44 U.S.C. Chapter 53.
2. Projects included in the MTIP must be consistent with the current adopted Region's MTP.
3. The MTIP must provide reasonable public review and comments opportunities during its development and these efforts must be documented and included in the final MTIP for FFY 2024-25 to FFY 2027-28.

4. Projects are to be assigned priority. To meet this requirement, in consultation with project sponsors, AMBAG has assigned an annual priority to all projects as documented in the Expedited Project Selection Procedures (EPSP), included in the MTIP for FFY 2024-25 to FFY 2027-28.
5. Currently, the Monterey Bay MPO region is designated as in attainment for the federal air quality standards; therefore, the MTIP for FFY 2024-25 to FFY 2027-28 is exempt from the Air Quality Conformity Analysis in conformation with the State Implementation Plan (SIP).

Chapter III: MTIP REQUIREMENT AND FINDINGS

The requirements for approval of the MTIP by the U.S. Department of Transportation are outlined in Chapter II, Section 3. In summary, these are:

- Finding of financial constraint analysis
- Consistency with the adopted Region's MTP/SCS
- Assurance that the MTIP has undergone public review and comments
- Prioritization of the projects included, Expedited Project Selection Procedures (EPSP)
- Air Quality Conformity analysis, if required.

The findings for these requirements are as follows:

1. Financial Constraint Analysis:

Funding availability: Funding committed or available for each transportation project by each federal, state, and local funding source by year is identified in the financial plan of this MTIP. Projects are grouped by year by funding source and all years of the MTIP are financially constrained to the resources reasonably expected to be available for the four years of the program.

The region-wide financial constraint tables included in Appendix A show currently available revenues to finance projects contained in the four years of the MTIP. The federal, state, and local revenue for each program was projected in the 2045 MTP/SCS as adopted by the AMBAG Board on June 15, 2022.

Appendix A summarizes a comprehensive perspective of funding availability and programming during the four years of the MTIP. Appendix A provides details on the cost of all projects to be programmed in each year and the amount of funding available in the respective year at regional level. In these financial constraint tables, total committed revenue for each year is shown by funding source in the Revenue columns and the total funds programmed for each funding source in the MTIP is shown in the Programmed columns by year. Appendix A shows that the MTIP for FFY 2024-25 to FFY 2027-28 is financially constrained and meets the financial constraint requirement as per the IIJA.

System Preservation, Operation, and Maintenance Costs

The IJA requires MTIP to identify costs for maintaining and operating the system of Federal-aid facilities. The MTIP includes 79 individually listed and grouped projects totaling \$1.40 billion for the operation and maintenance of the Federal-aid system including transit services.

Appendix A identifies how much money is available to support the region's surface transportation investments, including transit, highways, local road improvements, system preservation, and travel demand management (TDM) goals. Improving ground access in and around major goods movement facilities and enhancing major highways and public transit are critical to maintaining the health of the Monterey Bay Area's economy. The MTIP calls for various revenue sources for implementing a program of infrastructure improvements to keep freight and people moving. AMBAG's 2045 MTP/SCS provides an estimated cost of maintaining and operating the Federal-aid system over the next 20 years, which amounts to over \$3.35 billion.

The MTIP includes reasonably available revenue sources to supplement existing transportation dollars. The Monterey Bay Area's financially constrained program includes local, state, and federal sources along with funding sources that are reasonably available over the four years of the document.

The California Statewide Local Streets and Roads Needs Assessment (Assessment) is a biannual report that details the conditions of the streets and roads in the state. The assessment ranks road conditions using a Pavement Condition Index (PCI) with values of zero (failed condition) to 100 (good to excellent condition). The latest update in 2021 ranks the average condition of the state's local streets and roads in the "at risk" category with a score of 66. This is an improvement by one point after 2 years of SB1 funding (2018/19 and 2019/20). The table below, PCI and Needs by County, shows the PCI scores, number of lane miles, and total 10- year maintenance and rehabilitation need as identified in the Assessment for the AMBAG region. The total need for the region equates to roughly over \$215 million annually over the next 10 years, which is within the range of the region's financially constrained long range transportation plan (2045 MTP) funding capacity.

Table 4: California Statewide Local Streets and Roads Needs Assessment PCI

County (Cities Included)	Center Line Miles	Lane Miles	2020 PCI	10 Year Needs (2020 \$M)
Monterey	2,011	3,940	52	\$1,275
San Benito	492	761	37	\$337
Santa Cruz	873	1,757	55	\$547

Revenue Estimates

Table 4: Federal Revenue Estimates

\$1,000s

Funding Source	FFY 2024/25	FFY 2025/26	FFY 2026/27	FFY 2027/28	TOTAL
Highway Safety Improvement Program (HSIP)	\$930	\$415	\$0	\$0	\$1,345
Carbon Reduction Program (CRP)	\$1,603	\$1,000	\$1,960	\$0	\$4,563
Surface Transportation Block Grant Program (STBGP/RSTP)	\$135	\$0	\$142	\$0	\$277

Table 5: State Revenue Estimates

\$1,000s

Funding Source	FFY 2024/25	FFY 2025/26	FFY 2026/27	FFY 2027/28	TOTAL
State Transportation Improvement Program (STIP)	\$62,488	\$0	\$15,646	\$0	\$78,134
Highway Bridge Program (HBP)	\$9,725	\$4,890	\$14,714	\$1,596	\$30,925

In addition to federal and state dollars, Monterey Bay relies on local measure funds to provide sources of revenue for transportation projects.

Measure X

In May of 2015, the Transportation Agency for Monterey County engaged a public outreach effort to inform the public about our transportation needs, funding challenges and the self-help option. The Transportation Agency for Monterey County placed the Transportation Safety & Investment Plan (Measure X) on the November 8, 2016 ballot and the measure was approved with 67.7% approval from Monterey County voters. The measure is anticipated to generate an estimated \$20 million annually for a total of \$600 million over thirty years through a retail transactions and use tax of a three-eighths' of one-percent (3/8%). The revenue from the sales tax measure will be used to fund transportation safety and mobility projects in Monterey County.

Measure D

Measure D is a comprehensive and inclusive package of transportation improvements passed in November 2016 by over 2/3 of Santa Cruz County voters. This ½-cent sales tax guarantees every city and the county a steady, direct source of local funding for local streets and road maintenance, bicycle, and pedestrian projects (especially near schools), safety projects, and transit and paratransit service, as well as numerous essential transportation projects and programs throughout the county as outlined in the Expenditure Plan for Measure D. The Regional Transportation Commission (RTC) has completed Measure D pre-implementation tasks including administration, fiscal, oversight and engagement activities. In addition, the RTC has worked with Measure D recipient agencies to develop five-year programs of projects, annual report requirements and other required agreements.

The ½-cent, 30-year sales tax measure includes transportation projects that support:

- Providing safer routes to schools for local students
- Maintaining mobility and independence for seniors and those with disabilities
- Investing in bicycle and pedestrian pathways and bridges
- Repaving roadways, repair potholes, and improve safety on local streets
- Improving traffic flow on major roadways
- Investing in projects that reduce the pollution that causes global warming
- Recent Activities

Measure G

Measure G is Ordinance 2018-01 of the Council of San Benito County Government and the Transportation Safety and Investment Plan approved by San Benito County voters on November 6, 2018. The measure is a one cent local transactions and use tax to be collected for 30 years to improve our local streets and roads, improve connectivity, and reduce congestion. The San Benito County Regional Transportation Plan (RTP) identifies the following needs:

- **Maintain Local Streets and Roads:** San Benito County roads are crumbling under the weight of decades of underinvestment due to funding deficiencies. The county is one of seven counties in the state to have an average pavement condition of 46, well below “at risk,” and significantly worse than the statewide average. San Benito County has a combined pavement maintenance need of over \$350 million. Well maintained streets and roads will improve safety and traffic flow on local roads.
- **Widen Highway 25:** Average daily traffic at the San Benito/Santa Clara County line has more than doubled since the mid-1990s. Widening Highway 25 will increase safety and relieve traffic congestion.
- **Repair potholes and roadway cracking.** Apply slurry seals and overlays.
- **Increase pedestrian and bike safety.**
- **Protect and enhance bus and paratransit services for seniors, people with disabilities, and youth.**

The local measure revenues identified for the four years of the MTIP for FFY 2024-25 to FFY 2027-28 are listed below.

Table 6: Local Measure Revenue Estimates

\$1,000s					
Funding Source	FFY 2024/25	FFY 2025/26	FFY 2026/27	FFY 2027/28	TOTAL
Measure X	\$21,812	\$22,194	\$22,582	\$22,978	\$89,566
Measure D	\$26,796	\$27,265	\$27,743	\$28,228	\$110,033
Measure G	\$16,667	\$16,959	\$17,256	\$17,558	\$68,440

2. Consistency with the 2045 Monterey Bay Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS)

As the MPO, AMBAG is required to produce certain federally mandated documents that maintain the region's eligibility for federal transportation assistance which include the MTP/SCS. AMBAG coordinates the development of the MTP with the region's three Regional Transportation Planning Agencies (TAMC, SBtCOG, SCCRTC), transit providers (San Benito County LTA, MST, and SCMTD), the Monterey Bay Air Resources District (MBARD), state and federal governments, and organizations having interest in or responsibility for transportation planning and programming. AMBAG also coordinates transportation planning and programming activities with the three counties and 18 local jurisdictions within the tri-county Monterey Bay Region.

At their June 15, 2022 meeting, the AMBAG Board of Directors adopted the 2045 MTP/SCS and Environmental Impact Report (EIR) for Monterey Bay. The 2045 MTP/SCS and EIR is a financially constrained document and includes identified transportation improvement projects for the region. Once the projects are included in the region's official MTP, they become eligible for inclusion in the MTIP and FSTIP. The projects included in the Draft MTIP for FFY 2024-25 to FFY 2027-28 are consistent with the 2045 MTP/SCS and EIR. The complete 2045 MTP/SCS and EIR document is available at www.ambag.org.

Transition to Performance-Driven Program

MAP-21 and the FAST Act changed the Federal aid highway program and the Federal transit program by requiring a transition to a performance-driven, outcome-based program that provides for a greater level of transparency and accountability, improved project decision making and more efficient investment of Federal transportation funds. As part of this new performance-based approach, recipients of Federal-aid highway program funds and Federal transit funds must link investment priorities in the STIP and TIP to achieving performance targets.

These new rules implement the performance management framework at the state and national level with defined measures, targets, and reporting requirements. The FHWA and FTA have established national performance measures in key areas including safety, infrastructure condition, congestion, system reliability, emissions, and freight movement. The performance management framework requires States, MPOs, and providers of public transportation to establish targets in these key national performance areas. The proposed regulatory changes require States to coordinate with MPOs on target setting to the maximum extent practicable. In addition, States and transit providers are coordinating on performance targets relating to transit asset management, safety, and state of good repair. MAP-21 and the FAST Act requires that

MPOs reflect performance targets in their metropolitan transportation plans and requires that States achieve progress towards targets.

AMBAG's Regional Performance Measures

The Metropolitan Transportation Plan is the federally mandated long-range transportation plan for the Monterey Bay Area. The 2045 MTP/SCS lays out a financially constrained list of transportation projects that will enhance regional mobility as well as reduce greenhouse gas emissions. Please refer to Chapter 5 of the 2045 MTP/SCS which highlights the performance outcomes of the Plan.

3. Public Review, Comments, and Interagency Consultation

Federal regulations require that the MTIP be prepared in consultation and coordination with Caltrans, the RTPAs, the public transit operators in the region, and regional and local agencies and be subject to an adequate public outreach and review process. AMBAG's Monterey Bay Area Public Participation Plan adopted in November 2023 identifies the public involvement process in regard to the MTIP necessary to comply with federal and state legislation. The Public Participation Plan is available for review at www.ambag.org.

The MTIP for FFY 2024-25 to FFY 2027-28 programs transportation improvement projects as proposed to implement the adopted 2045 MTP/SCS. The RTIPs and SRTPs were prepared and approved by the RTPAs and the transit agencies, respectively, with extensive interagency consultation, as well as formal public review and hearings on the documents and their adoptions. The projects in this MTIP are, however, not simply a compilation of transportation projects already approved in other programs, but part of a new program, subject to its own interagency consultation and public comments and review processes. In addition, the MTIP is developed in consultation and coordination with the following agencies:

- Caltrans
- LTA (San Benito County)
- MST (including their paratransit program RIDES)
- SBtCOG
- SCCRTC
- SCMTD
- TAMC
- Federal Land Management Agencies

This MTIP was prepared by AMBAG staff in cooperation and consultation with the above agencies as well as federal (FHWA/FTA) oversight agencies. As per Federal regulations, AMBAG is to conduct a proactive interagency consultation and public involvement process to ensure that complete information, timely public notice, full public access at key decisions, and early and continuing involvement of the public be provided during development of this MTIP. Accordingly:

- AMBAG, the RTPAs and transit operators provided reasonable public access to technical and policy information used in the development of the MTIP for FFY 2024-25 to FFY 2027-28;
- AMBAG, the RTPAs and transit operators provided adequate public notice for public involvement and time for public review and comment at key decision points;
- AMBAG, the RTPAs and transit operators provided explicit consideration and response to public input received during the planning and program development processes;
- The needs of the traditionally underserved population by existing transportation systems, including but not limited to low-income and minority population, were sought by the RTPAs and transit operators;
- AMBAG forwarded the Draft MTIP for FFY 2024-25 to FFY 2027-28 to partner agencies and posted it on the following web sites for public review and comments:

AMBAG - <http://www.ambag.org>

MST – <http://www.mst.org>

SCCRTC – <http://www.sccrtc.org>

SCMTD – <http://www.scmttd.com>

SBtCOG/LTA - <http://www.sanbenitocog.org>

- AMBAG published a notice of public review and comments period of 30 days in local and regional newspapers to solicit public inputs.
- AMBAG will be conducting public hearing at the August 14, 2024, AMBAG Board of Directors meeting. Final adoption of the MTIP for FFY 2024-25 to FFY 2027-28 is scheduled at the September 11, 2024 AMBAG Board of Directors meeting. All the comments received by AMBAG will be reviewed and appropriately incorporated in the final MTIP.
- The public involvement activities and time established for public review and comments on the MTIP development process also satisfies the FTA's Program of Projects requirements.

4. MTIP Project Prioritization: Expedited Project Selection Procedures (EPSP)

It has been agreed upon by AMBAG, Caltrans, the RTPAs and the transit operators, per Title 23 CFR 450.332, that all projects within the four years of the MTIP for FFY 2024-25 to FFY 2027-28 have been selected for prioritization and may be implemented, subject to the conditions of the Expedited Project Selection Procedures (EPSP) outlined below.

Expedited Project Selection Procedures:

Federal Regulations allow for the shifting of projects for implementation within the four-year cycle of the adopted MTIP outside of the regular amendment process, subject to approval of Expedited Project Selection Procedures (EPSP) by the cooperating parties.

For the Monterey, San Benito, and Santa Cruz County area, the cooperating parties include AMBAG, SBtCOG, MST, SCCRTC, SCMTD, TAMC, LTA San Benito County and Caltrans.

Approval of EPSP would allow for projects to be moved within the four years of the MTIP and for projects within the four years of the MTIP to be implemented without processing an MTIP formal amendment or administrative modification, subject to the conditions of the EPSP outlined below.

The projects within the STIP may be advanced, subject to amendments to the STIP approved by the CTC.

Caltrans, AMBAG and the RTPAs agree that the Caltrans SHOPP program manager may move projects within the adopted SHOPP document, as well as projects under the State Minor Program, Active Transportation Program, Highway Bridge Program, Safe Routes to School Program, Carbon Reduction Program (CRP), and the Highway Safety Improvement Program.

Caltrans Division of Local Assistance has selected all the projects included in the first four years of the MTIP for all funding programs managed by the Division of Local Assistance. Caltrans, AMBAG, the RTPAs and the transit operators agree that the Caltrans Division of Local Assistance may move projects within the first four year without amending the MTIP/FSTIP, with the understanding that the Caltrans Division of Local Assistance will provide AMBAG with an updated listing of projects implemented using EPSP.

All other projects funded with federal and local funds may be implemented within the first four years of the adopted 2024 MTIP with the written approval of AMBAG's Executive Director.

Each of the cooperating agencies: SBtCOG, MST, SCCRTC, SCMTD, TAMC, and Caltrans have selected all projects from the first four years of MTIP for FFY 2024-25 to FFY 2027-28 and concur with the Expedited Project Selection Procedures.

5. Air Quality Conformity Analysis

Currently, the Monterey Bay MPO region is designated as in attainment for the federal air quality standards; therefore, the MTIP for FFY 2024-25 to FFY 2027-28 is exempt from the Air Quality Conformity Analysis in conformation with the SIP.

Chapter IV: MTIP Update and Amendment Process

Federal regulations require that the MTIP be updated at least once every four years. In addition, revisions to the MTIP may occur as Formal Amendments, Administrative Modifications, or Technical Corrections. The criteria for Administrative Modifications and Formal Amendments are defined in federal regulations, specifically Title 23, CFR 450.104. The Federal Highway Administration, Federal Transit Administration, and Caltrans agreed on Amendment and Administrative Modification Guidelines on December 18, 2019.

The revised FSTIP/MTIP Formal Amendment and Administrative Modification Procedures allow the following changes to be processed through an administrative modification:

- i. Revise description of individually listed projects without changing the project scope or without conflicting with the approved environmental document;
- ii. Revise the description of grouped project listings, as defined in 23 CFR Part 450.326 (h), if it is consistent with the Programming Grouped Project Listings in Air Quality Non-Attainment or Maintenance Areas guidance.
- iii. Revise the funding amount listed for a project or a project phase:
 - a. Additional funding to an individually listed project is limited to the lesser of 50 percent of the total project cost or \$20 million.
 - b. No limit on adding funds to a grouped project listing. Funding capacity must be available in the FSTIP/MTIP prior to processing programming changes and it must be stated in the supporting documentation.
- iv. Program the Preliminary Engineering (PE) phase provided the Right of Way and/or Construction phase(s) are already programmed in the current FSTIP/MTIP and additional funding amounts stay within the limits specified in section iii.
- v. Change source of funds.
- vi. Change a project lead agency.
- vii. Program federal funds for advance construction conversion provided that programming capacity is available in the FSTIP/MTIP prior to programming the conversion.
- viii. Change the program year of funds within the current FSTIP/MTIP provided the MPO has adopted Expedited Project Selection Procedures (EPSP) developed in accordance with 23 CFR 450.
- ix. Split or combine an individually listed project or projects provided the schedule and scope remain unchanged.
- x. Add or delete a project or projects from a grouped project listing.
- xi. Program emergency repair projects on state and local highways caused by natural disasters or catastrophic failures from external causes that are not covered by the Emergency Relief Program and exempt from air quality conformity requirements.
- xii. Re-program a project for which FHWA funds were transferred to the FTA in a prior FSTIP/MTIP cycle but has not received grant approval from the FTA. Those projects can be programmed in the current FSTIP/MTIP through an administrative modification provided the original scope or cost remain unchanged.

- xiii. Program an FTA-funded project from the prior FSTIP/MTIP cycle into the current FSTIP/MTIP provided the original scope or cost of the project remain unchanged.
- xiv. Make minor changes to an FTA-funded grouped project listing. Minor changes include changing the number of transit vehicles purchased by 20 percent or less and changing the fuel type of transit vehicles. The MPO must conduct an interagency consultation to confirm that the project scope change is deemed minor.

MTIP Update

A complete update of the existing TIP to reflect new or revised transportation investment strategies and priorities is required at least once every four years. The TIP is a programming document, implementing adopted MTP priority projects. TIP updates are subject to the conformity and interagency consultation procedures.

Formal Amendment

A formal amendment to the adopted TIP involves a major change, such as the addition or deletion of a project; a major change in project cost or scope, including but not limited to project phase initiation date; or a major change in design concept or design. A formal amendment is a revision that is subject to a 10-day public review and comments period, AMBAG Board approval, as well as State and Federal approval.

Administrative Modification

An administrative modification includes minor changes to a project's costs or to the cost of a project phase (less than 50%, or less than \$20,000,000 increases of the total project cost included in the TIP's four years); minor changes to funding sources of previously included projects; and minor changes to the initiation date of a project or project phase. Reduction of the project cost (no limit to the amount reduced) also qualifies for an Administrative Modification. An Administrative Modification is not subject to public review and comments and is approved by the AMBAG Executive Director, as Caltrans has delegated the AMBAG Executive Director the authority to approve administrative modification to the FSTIP under the delegated authority received from Caltrans on February 12, 2020.

Technical Correction

Technical corrections may be made by AMBAG staff as necessary. Technical corrections are not subject to an administrative modification or formal amendment and may include revisions such as: changes to information and projects that are included only for illustrative purposes; changes to information outside of the MTIP period; changes to information not required to be included in

the MTIP per federal regulations; or changes to correct simple errors or omissions including data entry errors. These technical corrections cannot significantly impact the cost, scope, or schedule of the project within the TIP period, nor will they be subject to a public review and comment process.

Chapter V: Project Lists

Requirements for project lists

The FAST Act requires that each project listed in the Draft MTIP for FFY 2024-25 to FFY 2027-28 include:

1. Detailed project description (i.e., type of work, location, length, etc.) sufficient to identify the project or phase
2. Estimated total project cost
3. Amount of Federal funds proposed to be obligated during each program year
4. Proposed source of federal and non-Federal funds
5. Identification of the recipient/sub-recipient and State and local agencies responsible for carrying out the project

Organization of the tables: The MTIP project listing Appendices are included in the following order:

1. Monterey County projects (Appendix B)
2. San Benito County projects (Appendix C)
3. Santa Cruz County projects (Appendix D)
4. Regionwide and grouped projects (Appendix E)
5. Projects Completed or Dropped from the MTIP for FFY 2024-25 to FFY 2027-28 (Appendix F)

Chapter VI: Performance-Based Planning and Programming

Background

Federal rules require that the Federal Transportation Improvement Program (MTIP) “be designed such that once implemented, it makes progress toward achieving the performance targets established under § 450.306(d).” Also, the MTIP “shall include, to the maximum extent practicable, a description of the anticipated effect of the MTIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets.”

The Moving Ahead for Progress in the 21st Century Act (MAP-21, 2012) established new requirements for metropolitan planning organizations (MPOs) to coordinate with transit providers, set performance targets, and integrate those performance targets and performance plans into their planning documents by specified dates. The most recent federal transportation legislative package, the Infrastructure Investment and Jobs Act of 2021 (IIJA), carries forward these performance-based planning requirements. Beginning in 2018, federal rules required that state departments of transportation and MPOs implement federally defined transportation system performance measures. In response, FHWA and FTA worked with state, regional, and transit agencies to identify performance measures that meet the requirements.

In California, Caltrans is directly responsible for submitting statewide performance targets and periodic progress reports to federal agencies. MPOs are required to establish targets for the same performance measures for their respective metropolitan planning areas within 180 days after the state establishes each target. MPOs may elect to support the statewide targets, establish alternative quantitative targets specific to their region, or use a combination of both approaches. Furthermore, each MPO must incorporate these short-range performance targets into their planning and programming processes, including the Metropolitan Transportation Plan/Sustainable Communities Strategy (MTP/SCS) and MTIP.

FHWA Performance Measures

The federal performance measures defined by the Federal Highway Administration (FHWA) are categorized into three performance management (PM) focus areas. Each focus area includes an associated set of metrics for which statewide and regional targets must be set.

PM 1: Transportation Safety

Motor Vehicle Collisions

- Number of motor vehicle collision fatalities
- Rate of motor vehicle collision fatalities per 100 million VMT
- Number of motor vehicle collision serious injuries

- Rate of motor vehicle collision serious injuries per 100 million VMT

Non-Motorized Fatalities and Serious Injuries

- Number of non-motorized fatalities and serious injuries

PM 2: National Highway System (NHS) Pavement and Bridge Condition

NHS Pavement Condition

- Percentage of Interstate System pavement in 'good' condition
- Percentage of non-interstate NHS pavement in 'good' condition
- Percentage of Interstate System pavement in 'poor' condition
- Percentage of non-interstate NHS pavement in 'poor' condition

NHS Bridge Condition

- Percentage of NHS bridges in 'good' condition
- Percentage of NHS bridges in 'poor' condition

PM 3: NHS Performance, Interstate System Freight Movement, and CMAQ Program Performance

NHS Performance

- Percent of Interstate System mileage reporting reliable person-mile travel times
- Percent of non-interstate NHS mileage reporting reliable person-mile travel times

Interstate Freight Movement

- Percent of Interstate system mileage reporting reliable truck travel times

CMAQ Program Performance

- Annual hours of peak-hour excessive delay per capita
- Total emissions reduction by criteria pollutant (PM10, PM2.5, Ozone, CO)
- Percent of non-single occupancy vehicle (SOV) travel

FTA Performance Measures

In addition to the three PM focus areas defined by FHWA, the Federal Transit Administration (FTA) established performance measures and reporting requirements for transit asset management (TAM) and transit safety.

Performance metrics for TAM focus on the maintenance of our regional transit system in a state of good repair. Transit safety performance monitoring is focused on assessment of the number of transit incidents resulting in fatalities or serious injuries and transit system reliability.

FTA issued the TAM Final Rule (49 CFR §625 et seq.), effective October 1, 2016, to implement MAP-21 transit asset management provisions. This final rule mandates a National TAM System, defines ‘State of Good Repair’ (SGR), and requires transit providers to develop TAM plans. The Metropolitan Transportation Planning Final Rule (23 CFR §450.206) outlines the timelines and processes by which states, MPOs, and transit providers must coordinate in the target setting process.

The FTA PM focus areas and associated metrics are as follows:

Transit Asset Management (TAM)

- Equipment: Share of non-revenue vehicles that meet or exceed useful life benchmark
- Rolling Stock: Share of revenue vehicles that meet or exceed useful life benchmark
- Infrastructure: Share of track segments with performance restrictions
- Facilities: Share of transit assets with condition rating below 3.0 on FTA Transit Economic Requirements Model (TERM) scale

Transit Safety

- Number of transit-related fatalities
- Number of transit-related injuries
- Number of transit system safety events
- Transit system reliability

Public Transit Agency Safety Plan

On July 19, 2018, the FTA published the Public Transportation Agency Safety Plan (PTASP) Final Rule (49 CFR §673.15) regulating how Chapter 53 grantees would have to implement federally mandated safety standards. The rule’s effective date was July 19, 2019, and the compliance date was initially set for July 20, 2020. Considering the extraordinary operational challenges presented by the COVID-19 public health emergency, FTA issued a Notice of Enforcement Discretion effectively extending the PTASP compliance deadline from July 20, 2020 to December 31, 2020. The MPO’s initial transit safety targets are to be set within 180 days of receipt of the safety performance targets from the transit agencies. The MPO then revisits its targets based on the schedule for preparation of its system performance report that is part of the MTP/SCS. The first MTP/SCS or MTIP update or amendment to be approved on or after July 20, 2021, is required to include the MPO’s transit safety targets. See FTA’s COVID-19 FAQs page for more information about the Notice.

The final rule specifically requires transit agencies receiving federal funds to develop a safety plan and annually self-certify compliance with that plan. The National Public Transportation Safety Plan identifies four performance measures that must be included in the transit agency safety plans: number of fatalities, number of injuries, safety events, and system reliability. Each transit agency must make its safety performance targets available to MPOs to assist in the

planning process and to coordinate, to the maximum extent practicable, with the MPO in selecting regional transit safety targets.

How AMBAG Addresses Each Performance Management Focus Area

Under the statewide performance management framework, AMBAG is responsible for supporting Caltrans targets or setting our own regional targets. Caltrans has set statewide targets to comply with federal transportation performance measure regulations and AMBAG has adopted these targets. These targets are incorporated into AMBAG’s planning processes, including in the MTIP and MTP/SCS.

There are two primary requirements for incorporating performance management into the MTIP. For all federally required targets, AMBAG must show that the MTIP “makes progress towards achieving the performance targets” and that the MTIP includes, “to the maximum extent practicable, a description of the anticipated effect of the MTIP towards achieving the performance targets” (Title 23 CFR§ 450.326). AMBAG must show that it is moving in the right direction based on the package of investments included in the MTIP and must also describe how much of an effect the MTIP investments are expected to have on the target achievement.

Table 7 – Projects Contributing to Performance Measure Improvement in Draft MTIP for FFY 2024-25 to FFY 2027-28

AMBAG Draft MTIP For FFY 2024-25 to 2027-28	# of Projects Contributing to PM*	Total* Projects
Safety	26	105
Roadway & Bridge Condition	68	105
System Performance	31	105
Transit Operation & State of Good Repair	11	105

*Note: Each project may have multiple PM benefits

Transportation Safety (PM 1)

The Fixing America’s Surface Transportation Act (FAST Act) requires that MPOs provide a system performance report in the Metropolitan Transportation Plan evaluating the condition and performance of the transportation system with respect to established state performance targets. The 2024 State safety performance measurement targets are based on 5-year rolling

averages as follows: Number of Fatalities - 4,080.6; Rate of Fatalities per 100M VMT - 1.300; Number of Serious Injuries - 16,628.1; Rate of Serious Injuries (per 100M VMT) - 4.918; and Number of Non-Motorized Fatalities and Non-Motorized Severe Injuries - 4,380.5. AMBAG contributes to the achievement of these statewide goals by requiring all transportation agencies in the region to assure their projects meet transportation performance management goals in financial programming documents. These state performance targets are regularly updated.

The goal of this measure is to reduce traffic fatalities and serious injuries on all public roads. Caltrans set safety performance targets in November 2023 for the 2024 calendar year as shown in Table 7 below.

**2024 California Safety Performance Management 1 (PM1) Targets
Metropolitan Planning Organization Agreement: MPO Target Reporting Template**

Caltrans' 2024 Statewide SPMT Based on a 5-Year Rolling Average

Performance Target	Data Source	5-Yr. Rolling Average
Number of Fatalities	FARS	4,080.6
Rate of Fatalities (per 100M VMT)	FARS & HPMS	1.300
Number of Serious Injuries	SWITRS	16,628.1
Rate of Serious Injuries (per 100M VMT)	SWITRS & HPMS	4.918
Number of Non-Motorized Fatalities and Non-Motorized Severe Injuries	FARS & SWITRS	4,380.5

AMBAG has adopted the State's safety targets and supports these targets through ongoing planning and programming efforts. The federal and state transportation performance management framework is supported in the MTIP by assuring programmed projects for implementation support statewide performance targets. Approximately 25% of projects in the MTIP are primarily safety projects, with others having partial safety improvement impacts.

Safety projects programmed in the FFY 2024-25 to FFY 2027-28 are summarized below.

Table 9 – Summary of Safety Programs and Projects

			\$1,000s	
	Total Project Cost	Funding in the 4-Year Element	% of Funding in the 4-Year Element	Number of Projects
Safety Projects	\$ 805,933	\$ 381,819	24%	26
Other Projects (Not Primarily for Safety)	\$ 1,559,289	\$ 1,229,888	76%	79
Total	\$ 2,365,222	\$ 1,611,707	n/a	105

Three statewide funding programs dedicated to transportation safety are employed by AMBAG including:

1. Active Transportation Program (ATP)
2. Highway Safety Improvement Program (HSIP)
3. State Highway Operations & Protection Program (SHOPP) Collision Reduction

ATP

The ATP provides funding for bicycle and pedestrian projects. Since people are more vulnerable to safety risk while walking or biking as compared to traveling in a motor vehicle, any project that promotes the safe use of bicycling or pedestrian modes is likely to generate safety benefits. The ATP further emphasizes safety by allotting points for project applications that specifically seek to reduce the rate or number of pedestrian and bicyclist fatalities and injuries.

HSIP

The HSIP directly addresses transportation safety. The program’s stated purpose is to “achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal land.” Successful project applications specifically seek to reduce collision related fatalities and injuries. The program is designed to focus local investments to locations and corridors that demonstrate the greatest need for safety improvement to implement lower cost countermeasures.

SHOPP Collision Reduction

SHOPP is the State Highway System’s “fix-it-first” program that funds roadway repairs and preservation, emergency repairs, safety improvements, and some highway operational improvements on the State Highway System (SHS). SHOPP funding is limited to capital improvement projects that do not add new roadway capacity (no new highway lanes) to the SHS, though some new auxiliary lanes may be eligible for SHOPP funding.

The Collision Reduction program is one of eight categories that make up the SHOPP, and its objective is to reduce the number or severity of collisions. The SHOPP Collision Reduction category consists of two sub-programs:

- *201.010 - Safety Improvements*: Reactive approach based on analysis of collision history
- *201.015 - Collision Severity Reduction*: Proactive approach targeted to reduce the potential for traffic collisions based on past performance of roadway characteristics

201.010 – Safety Improvements

The SHOPP Collision Reduction Safety Improvements sub-program is designed to reduce the number or severity of collisions on the SHS. Projects with a safety index above 200 qualify as a safety improvement project. Projects may be individual locations where the collision history indicates a pattern potentially correctable by a targeted safety improvement, such as unsafe traffic (school zone signals included), wet pavement corrections, curve corrections, shoulder widening, left-turn channelization, etc. All proposed SHOPP Collision Reduction projects programmed in FY 2024-25 MTIP will be verified by the Caltrans Office of Traffic Safety Programs in the Division of Traffic Operations before being certified as a safety improvement project.

This program also provides funding for safety improvements at sites identified in regional monitoring programs for the reduction of motor vehicle collisions, such as locations at high risk for wrong-way, multilane, cross-median, cross-centerline, and run-off-the-road collisions. The program also provides funding for non-motorized safety improvements, such as pedestrian and bicycle facilities.

The Safety Improvements program does not provide funding for relocating existing highways or projects that would add new through lanes or upgrade existing highways to a higher classification, such as conventional to expressway, regardless of the safety benefits. This program also does not include projects where the prime purpose is reducing congestion.

Highway improvement projects along an existing alignment to improve standards of width, grade, alignment, or other geometric improvements, are considered new highway construction and are included in the Caltrans STIP programs.

201.015 - Collision Severity Reduction

This sub-program is focused on upgrading existing highway safety features within the roadbed's clear recovery area to reduce the number and severity of collisions. Eligible projects may include new guardrail end treatments and crash cushions, rumble strips, glare screen, rock fall mitigation, overcrossing pedestrian fencing, crosswalk safety enhancements, and improvements that prevent roadway departure.

The Collision Severity Reduction program is designed to be proactive in enhancing safety on the State Highway System. As such, this program is not subject to a safety index analysis but will define projected collision severity reduction performance quantitatively. Projects will be prioritized based on the projected collision severity reduction benefits provided.

2024 SHOPP Collision Reduction Numbers (Statewide)

A total of 635 projects are included in the 2024 SHOPP that was adopted by the CTC in March 2024. The 2024 SHOPP is valued at \$21.2 billion, which includes reservation amounts for several programs, including the Collision Reduction Program. The SHOPP Collision Reduction Program currently has 95 programmed safety projects totaling \$1,053,464,000. The SHOPP reserves \$1,135,000,000 for the 201.010 Safety Improvement program. The reserved amount will address future safety improvements as they are identified.

National Highway System (NHS) Pavement & Bridge Condition (PM 2)

The goal of this measure is to maintain the condition of highway and bridge infrastructure assets in a state of good repair. The pavement and bridge condition Performance Management (PM 2) targets are as follows: (1) Percentage of NHS pavement in “good” condition, (2) Percentage of NHS pavement in “poor” condition, (3) Percentage of non-NHS pavement in “good” condition, (4) Percentage of non-NHS pavement in “poor” condition, (5) Percentage of NHS bridges in “good” condition, and (6) Percentage of NHS bridges in “poor” condition. The State has taken on the responsibility of collecting and reporting on statewide pavement and bridge condition data and provides this information to MPOs for evaluation of progress on these measures. The State provides an estimate of local pavement and bridge condition, and drafts general goals for each MPO area. AMBAG reviewed these State tools and certified our local goals to help achieve statewide targets.

Table 10 –Statewide Pavement Condition Targets (2022-3)

Performance Measure	Target
Percentage of Interstate System pavement in ‘Good’ condition	49.2%
Percentage of non-interstate NHS pavement in ‘Good’ condition	28.2%
Percentage of Interstate System pavement in ‘Poor’ condition	1.7%
Percentage of non-interstate NHS pavement in ‘Poor’ condition	9.0%
Percentage of NHS bridges in ‘Good’ condition	47.3%
Percentage of NHS bridges in ‘Poor’ condition	4.4%

AMBAG contributes to the achievement of these statewide goals by requiring all transportation agencies in the region to assure their projects meet transportation performance management goals in financial programming documents. Many of the projects programmed in the MTIP

serve to improve or maintain pavement and bridge condition. Approximately 65% of projects in the MTIP will result in pavement and/or bridge improvements.

The following section describes the funding sources and programs that have been used to fund PM 2 related projects in the AMBAG region.

Local Funds

Cities and counties spend billions of dollars each year maintaining local roads and bridges. Funding for these efforts is derived from a myriad of sources. In a survey of California jurisdictions, for local funds alone, there are more than a hundred different sources of taxes and fees reported that are used on pavement improvement projects. Some examples of local funding sources include:

- Local sales taxes
- Development impact fees
- General funds
- Various assessment districts – lighting, maintenance, flood control, special assessments, community facility districts
- Traffic impact fees
- Traffic safety/circulation fees
- Utilities (e.g., stormwater, water, wastewater enterprise funds)
- Transportation mitigation fees
- Parking and various permit fees
- Flood control districts
- Enterprise funds (solid waste and water)
- Investment earnings
- Parcel/property taxes
- Indian reservation roads
- Indian gaming funds
- Vehicle registration fees
- Vehicle code fines
- Underground impact fees
- Transient occupancy taxes
- Capital Improvement Program (CIP) reserves/capital funds

Local Funds are typically used for non-regionally significant road maintenance, safety, and bridge projects. Even so, some of the PM 2 projects in the MTIP are funded through Local Funds.

State Funds

HUTA

The Highway Users Tax Account (HUTA), more commonly known as the state gas tax, is still the single largest funding source for cities and counties.

SB 1

California doubled down on PM 2 when it approved Senate Bill 1 on April 28, 2017. SB 1 increased several taxes and fees to raise more than \$5 billion annually in new transportation revenues. Moreover, SB 1 provides for inflationary adjustments, so that purchasing power does not diminish as it has in the past. SB 1 prioritizes funding towards maintenance, rehabilitation, and safety improvements on state highways, local streets and roads, and bridges and to improve the state's trade corridors, transit, and active transportation facilities.

Many SB 1 funds are not captured in the MTIP because this document focuses on federally funded and regionally significant projects, while SB 1 is a non-federal fund source that tends to pay for non-regionally significant road maintenance, safety, and bridge projects. Even so, some of the PM 2 projects in the MTIP are funded through SB 1.

Federal Funds

HBP

The Highway Bridge Program (HBP) provides federal aid to local agencies to replace and rehabilitate deficient, locally owned, public highway bridges. The HBP is intended to remove structural deficiencies, the Bipartisan Infrastructure Law (BIL) revises the terminology to "classified in poor condition," from existing local highway bridges to keep the traveling public safe.⁷ The HBP provides about \$288 million annually for bridge projects. Off-system bridges are usually funded at 100% HBP, while on system bridges are funded at 88.53% HBP. An exception to the federal participating rate is "high-cost" bridges, in which sponsors enter into agreements with Caltrans Local Assistance and agree on a federal participating rate which may not equal 100% or 88.53%.

BFP

Bridge Formula Program (BFP) is a new program established under the Bipartisan Infrastructure Law (BIL) to provide funding to replace, rehabilitate, preserve, protect, and construct bridges. It is a complement to the discretionary Bridge Investment Program (see below). The Bridge Formula Program under BIL provides 4.25 Billion to the State of California, of which States are required to reserve 15 percent of their formula funds under this program for use on off-system bridges. For funds used on locally owned off-system bridges, the Federal share is 100%.

SHOPP

The SHOPP was described in the section above under PM 1. Two of the eight categories of the SHOPP that address PM 2 are Bridge Preservation and Roadway Preservation.

Although the SHOPP is a program, it is often thought of as a fund source as well. The MTIP lists the fund source for most SHOPP projects as “SHOPP Advance Construction.” Caltrans blends funds from HUTA, SB 1, and federal highway funds into SHOPP, and the “SHOPP Advance Construction” designation serves as a placeholder for what may be federal or state funds.

SHOPP Roadway Preservation

The SHOPP Roadway Preservation category includes the following programs:

- 201.120 – Roadway Rehabilitation
- 201.121 – Pavement Preservation
- 201.122 – Pavement Rehabilitation
- 201.150 – Roadway Protective Betterments
- 201.151 – Drainage System Restoration
- 201.170 – Signs and Lighting Rehabilitation

The 2024 SHOPP has 281 Roadway Preservation projects totaling \$9,030,559,000 which includes future need/contingency dollars. The SHOPP does not have a reservation for Roadway Preservation.

SHOPP Bridge Preservation

The SHOPP Bridge Preservation category includes the following programs:

- 201.110 – Bridge Rehabilitation and Replacement
- 201.111 – Bridge Scour Mitigation
- 201.113 – Bridge Seismic Restoration
- 201.119 – Capital Bridge Preventative Maintenance Program
- 201.322 – Transportation Permit Requirements for Bridges

The 2024 SHOPP has 82 Bridge Preservation projects totaling \$2,362,120,000 which includes future need/contingency dollars. The SHOPP does not have a reservation for Bridge Preservation.

Table 11 – SHOPP PM 2 Projects in the FFY 2024-25 to FFY 2026-27 MTIP

Category	# of projects	\$ in 4 years	\$ Total
PM 2 Projects	38	\$602,923	\$722,975

NHS Performance, Interstate System Freight Movement, and CMAQ Program Performance (PM 3)

The goals of these measures are to reduce congestion on the National Highway System; improve the efficiency of the surface transportation system; improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, support regional economic development; enhance the performance of the transportation system while protecting and enhancing the natural environment. The key system performance, freight system, congestion mitigation and air quality Performance Management (PM 3) target applicable to the AMBAG region is: Percent of Reliable Person-Miles Traveled on the Non-Interstate NHS. This measure is a Level of Travel Time Reliability (LOTTR) metric and is required to be used by states and MPOs in assessing system performance. LOTTR is defined as the ratio of the longer travel times (80th percentile) to a “normal” travel time (50th percentile), using data from FHWA’s National Performance Management Research Data Set (NPMRDS) or equivalent. Data are collected in 15-minute segments during all time periods between 6 a.m. and 8 p.m. local time. The measures are the percent of person-miles traveled on the relevant portion of the NHS that are reliable. Person-miles take into account the users of the NHS. AMBAG has exceeded the 4-year state travel time reliability goal since goals were set in 2021 with 80% or higher reliability scores.

Table 12 - PM3 - National Highway System

Performance Measure	Target
NHS Performance	
Percent of non-Interstate NHS mileage reporting reliable person-mile travel times	84.7%

Many of the projects programmed in the MTIP serve to improve NHS performance and interstate freight movement, and future regional transportation projects are expected to contribute towards maintaining this high level of reliable person miles traveled. Approximately 30% of projects in the MTIP are expected to improve travel time reliability on the non-Interstate NHS.

The following are funding sources and programs that help fund Non-Interstate and Interstate improvement projects:

SHOPP Mobility

The SHOPP Mobility category includes following three programs:

201.310 – Operational Improvements

201.315 – Transportation Management Systems

201.321 – Weigh Stations & Weigh-In-Motion Facilities

201.310 – Operational Improvements

The primary purpose of this program element is to improve traffic flow on existing State highways by reducing congestion and operational deficiencies at spot locations. Operational improvement projects do not expand the design capacity of the system.

Examples of Operational Improvements projects include, but are not limited to:

- Interchange modifications (not to accommodate traffic volumes significantly larger than what the existing facilities were designed for)
- Ramp modifications (acceleration - deceleration/weaving)
- Auxiliary lanes for merging or weaving between adjacent interchanges
- Curve corrections/improve alignment
- Signals and/or intersection improvements
- Two-way left-turn lanes
- Channelization
- Turnouts
- Shoulder widening

201.315 – Transportation Management Systems

The primary purpose of this program element is to improve traffic flow on existing State highways by addressing system-wide congestion through system management techniques. Transportation Management Systems facilitate the real time management of the State highway system by providing accident and incident detection, verification, response, and clearance. These systems provide State highway system status information to travelers.

Examples of Transportation Management System projects include, but are not limited to:

- Traffic sensors
- Changeable message signs
- Close circuit television cameras
- Ramp meters
- Communications systems
- Highway advisory radio
- Traffic signal interconnect projects
- Traffic management systems housed in Transportation Management Centers (TMCs), including the necessary software and hardware (excluding facilities)
- TMC interconnect projects

201.321 – Weigh Stations & Weigh-in-Motion Facilities

The primary purpose of this SHOPP Mobility program element is to provide for Commercial Vehicle Enforcement Facilities (commonly called Weigh Stations) and Weigh-in-Motion (WIM)

systems. The Weigh Stations are needed to support the Commercial Vehicle Enforcement Plan; Truck safety, size and weight regulations are enforced by the California Highway Patrol reducing truck related accidents or incidents and protection our highways from premature damage. The WIM sites provide data for federally required data systems and special studies, design and maintenance strategies, size and weight policies, enforcement and planning strategies, and the traffic and truck volumes publications.

The 2024 SHOPP features 43 Mobility projects programmed totaling \$862,000,000 which includes future need/contingency dollars. The SHOPP does not have a reservation for Mobility.

SB 1 Trade Corridor Enhancement Program (Including National Highway Freight Program)

The purpose of the Senate Bill 1 (SB 1) Trade Corridor Enhancement Program (TCEP) is to provide funding for infrastructure improvements on federally designated Trade Corridors of National and Regional Significance, on California's portion of the National Highway Freight Network as identified in California Freight Mobility Plan, and along other corridors that experience high volumes of freight movement. The Trade Corridor Enhancement Program also supports the goals of the National Highway Freight Program, the California Freight Mobility Plan, and the guiding principles in the California Sustainable Freight Action Plan.

This statewide, competitive program will provide approximately \$300 million per year in state funding and approximately \$515 million in National Highway Freight Program funds if the federal program continues under the next federal transportation act.

Eligible applicants apply for program funds through the nomination of projects. All projects nominated must be identified in a currently adopted regional transportation plan (RTP). The Commission is required to evaluate and select submitted applications based on the following criteria:

- Freight System Factors – Throughput, Velocity, and Reliability
- Transportation System Factors – Safety, Congestion Reduction/Mitigation, Key Transportation Bottleneck Relief, Multi-Modal Strategy, Interregional Benefits, and Advanced Technology
- Community Impact Factors – Air Quality Impact, Community Impact Mitigation, and Economic/Jobs Growth
- The overall need, benefits, and cost of the project
- Project Readiness – ability to complete the project in a timely manner
- Demonstration of the required 30% matching funds
- The leveraging and coordination of funds from multiple sources
- Jointly nominated and/or jointly funded

Truck Travel Discussion

Mobility improvements included in the MTIP including auxiliary lanes. Auxiliary lanes particularly assist truck traffic by allowing improved capacity on offramps and onramps to keep entering and exiting traffic from impacting ideal operational speeds and reliability.

CMAQ

The Congestion Mitigation and Air Quality (CMAQ) program supports improving air quality and relieving roadway congestion. The purpose of the CMAQ program is to fund transportation projects or programs that will contribute to attainment or maintenance of the National Ambient Air Quality Standards (NAAQS) for ozone, carbon monoxide (CO), and particulate matter (both PM10 and PM2.5). While AMBAG is not subject to the CMAQ program, AMBAG may be required to comply with CMAQ in the long term horizon.

Transit Asset Management (TAM)

The goal of this measure is to maintain the condition of public transit assets in a state of good repair. The table below provides a summary of the performance measures designated for Transit Asset Management (TAM).

Table 13- Transit Asset Management Performance Measures

<i>Transit Asset Management Performance Measures</i>		
Asset Category	Performance Measurement	Asset Class Examples
Rolling Stock - (revenue service vehicles) (Age)	Percentage of revenue vehicles within a particular asset class that have met or exceeded useful life benchmark (ULB).	40-foot bus, 60-foot bus, vans, automobiles, locomotives, rail vehicles
Equipment – (non-revenue) service vehicles (Age)	Percentage of vehicles that have met or exceeded their ULB.	Cranes, prime movers, vehicle lifts, tow trucks, vans, automobiles
Infrastructure-rail fixed-guideway track, signals, and systems (Condition)	Percentage of track segments, signal, and systems with performance restrictions.	Signal or relay house, interlockings, catenary, mechanical, electrical and IT systems
Stations/Facilities (Condition)	Percentage of facilities within an asset class, rated below 3 on the Transit Economic Requirements Model scale.	Stations, depots, administration, parking garages, terminals, shelters

The TAM targets provided below were produced collaboratively with transit agencies based on their agency TAM plans and local targets. In developing the targets, AMBAG reviewed and considered the below mentioned three local and regional transit operators' TAM plans (including identified goals, objectives, measures, and targets), thereby incorporating them into the metropolitan planning process.

This section presents the TAM performance measures and targets adopted by Monterey Salinas Transit (MST), Santa Cruz Metropolitan Transit District (METRO), and San Benito Local Transit Authority (LTA) in the AMBAG region.

Table 14 - Transit Asset Management (TAM) Targets in the AMBAG Region

Monterey Salinas Transit	Rolling Stock	Equipment	Facilities	Infrastructure
	<i>(Pct of revenue vehicles > ULB)</i>	<i>(Pct of non-revenue vehicles > ULB)</i>	<i>(Pct of facilities < TERM scale 3)</i>	<i>(Pct of track segments with restrictions)</i>
Ea. Transit Agency/County Weighted Avg. (Bus)	44%	53%	N/A	N/A
Ea. Transit Agency/County Weighted Avg. (Rail)	N/A	N/A	N/A	N/A
Ea. Transit Agency/County Weighted Avg. (Combined Bus and Rail)	N/A	N/A	N/A	N/A
Regional Target based on Weighted Avgs. (If applicable)	39.0%	35.7%	N/A	N/A

Santa Cruz METRO	Rolling Stock	Equipment	Facilities	Infrastructure
	<i>(Pct of revenue vehicles > ULB)</i>	<i>(Pct of non-revenue vehicles > ULB)</i>	<i>(Pct of facilities < TERM scale 3)</i>	<i>(Pct of track segments with restrictions)</i>
Ea. Transit Agency/County Weighted Avg. (Bus)	46%	54%	0%	N/A
Ea. Transit Agency/County Weighted Avg. (Rail)	N/A	N/A	N/A	N/A
Ea. Transit Agency/County Weighted Avg. (Combined Bus and Rail)	N/A	N/A	N/A	N/A
Regional Target based on Weighted Avgs. (If applicable)	39.0%	35.7%	N/A	N/A

San Benito County Express	Rolling Stock	Equipment	Facilities	Infrastructure
	(Pct of revenue vehicles > ULB)	(Pct of non-revenue vehicles > ULB)	(Pct of facilities < TERM scale 3)	(Pct of track segments with restrictions)
Ea. Transit Agency/County Weighted Avg. (Bus)	27.00%	0%	N/A	N/A
Ea. Transit Agency/County Weighted Avg. (Rail)	N/A	N/A	N/A	N/A
Ea. Transit Agency/County Weighted Avg. (Combined Bus and Rail)	N/A	N/A	N/A	N/A
Regional Target based on Weighted Avgs. (If applicable)	39.0%	35.7%	N/A	N/A

Metropolitan transportation planning by AMBAG is performed in coordination with the region's three transit operators, MST in Monterey County, METRO in Santa Cruz County and LTA in San Benito County. AMBAG coordinates with these transit operators to assure the MTIP facilitates implementation of their transit asset management plans. The MTIP prioritizes funding based on the condition of transit assets in order to maintain local and regional transit system in a state of good repair. AMBAG's planning process aims to address the goals, objectives, performance measures and targets described in each transit operator's Transit Asset Management Plan (TAMP). AMBAG's MTIP is consistent with the FHWA/FTA Final Rule on planning and the Transit Asset Management Final Rule. Many of the projects programmed in the MTIP serve to improve transit asset management. Approximately 11% of projects in the MTIP work to improve transit asset management.

The three public transportation reporting entities provided their targets to AMBAG as shown in the table above. AMBAG's regional targets are presented in tabular form to account for the differences in targets and standards among the providers of public transportation. Targets represent the thresholds for the maximum percentage of assets at or exceeding acceptable standards. In most cases for the target-setting process, providers set targets that were approximately equivalent to their current performance. In future years, staff will work with the providers of public transportation to collate performance. These measures are updated regularly and will be updated as new information becomes available.

The transit operators in the AMBAG region have developed and adopted TAM plans and targets, which are available from the transit agencies. TAM category projects may also be supported by state, local, and other federal funding sources (e.g., FTA Section 5337 State of Good Repair, FTA 5307, FTA 5339 formula funds, and FHWA/FTA/State flexible funds such as STBG and competitive grant programs). The funding and the program of projects in the MTIP will enable the transit operators to achieve their respective transit asset management performance targets.

Public Transportation Agency Safety Plans (PTASP)

The goal of these measure is to improve the safety of all public transportation systems, specifically in the areas of fatalities, injuries, safety events and system reliability.

The transit safety performance measures have been selected through rulemaking on national reporting. AMBAG coordinates on transit safety performance measures with the region's three transit operators, Monterey-Salinas Transit (MST), Santa Cruz Metropolitan Transit District (METRO), San Benito County Local Transportation Authority (LTA). Transit agencies are required to set numerical targets each year for each transit safety measure to comply with performance management regulations. Once transit operators in the region set their targets through their Public Transportation Agency Safety Plan (PTASP), AMBAG adopts the targets by reference and coordinate to assure the MTIP helps to implement their transit safety plans and achieves the targets found therein.

The National Public Transportation Safety Plan identifies four performance measures that must be included: fatalities, injuries, safety events, and system reliability. Definitions for transit safety performance measures are as described in the NTD Safety and Security Manual.

Transit providers may choose to establish additional targets for safety performance monitoring and measurement. The following table documents existing performance targets set by transit operators in the AMBAG region.

Table 15 - Public Transportation Agency Safety Plan (PTASP) Targets

Mode of Service	Fatalities	Fatalities (per 10 million VRM)	Injuries	Injuries (per 10 million VRM)	Safety Events	Safety Events (per 10 million VRM)	System Reliability (Mean distance between major mechanical failures)
Rail Transit	N/A	N/A	N/A	N/A	N/A	N/A	N/A
Bus Transit	0	0	1.5	4.08	0.5	0.025	38,003.5
ADA/ Para transit	0	0	2.5	6.805	0	0	55,479.5
Vans/Autos	N/A	N/A	N/A	N/A	N/A	N/A	N/A

A number of the projects programmed in the MTIP serve to improve transit asset management. The MTIP includes funding from multiple fund sources (FTA, State and local funds) for projects that support transit safety. Examples of these projects include bus replacement, bus pullouts, bus stop improvements, crossing improvements, and similar projects. These measures are updated regularly as new information becomes available.

TITLE: Carmel River Floodplain Restoration and Environmental Enhancement (CRFREE) Project

DESCRIPTION: The Carmel River Floodplain Restoration and Environmental Enhancement Project (CRFREE Project) is a comprehensive effort to improve flood control and restore native riparian habitat, floodplain habitat, and hydrologic function to a portion of the lower floodplain along along the Carmel River. Key aspects of the CRFREE Project are to: 1) Create notches in the levees along the south bank of the lower Carmel River, 2) Restore the south lower Carmel River floodplain, and 3) Build a causeway along Highway 1, restoring connectivity between the lower Carmel River Floodplain and the south arm of the Carmel Lagoon.)

TITLE: Pajaro to Prunedale G12 Corridor Project, Segment 6 - Phase 2

DESCRIPTION: Segment 6 is the northernmost segment of G12 that acts as the main street of Pajaro and runs adjacent to the future Pajaro/Watsonville Multimodal Train Station project site. Phase 2 is a 1.0 mile long segment extending north along Salinas Road from the junction of Salinas Road and Elkhorn Road through the unincorporated community of Pajaro, terminating at Railroad Avenue. The project will reduce four lanes to two to install Class II bike lanes and 3 ft buffer where feasible; install a raised median; install rectangular rapid-flashing beacons; fill sidewalk gaps; install splitter island on minor road approaches; and install dynamic speed warning signs.

TITLE: Grouped Projects for Safety Improvements-HSIP Program

DESCRIPTION: Program Purpose: MAP-21 continues the Highway Safety Improvement Program (HSIP) to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. The HSIP requires a data-driven, strategic approach to improving highway safety on all public roads that focuses on performance.

Resolution of the Board of Directors of the Association of
Monterey Bay Area Governments Adopting the MTIP for
FFY 2024-25 to FFY 2027-28

**THIS PAGE IS

Resolution No. 2024-X

**A RESOLUTION
OF THE BOARD OF DIRECTORS OF THE ASSOCIATION OF MONTEREY BAY AREA
GOVERNMENTS ADOPTING THE MONTEREY BAY METROPOLITAN TRANSPORTATION
IMPROVEMENT PROGRAM (MTIP) FFY 2024-25 to FFY 2027-28**

WHEREAS, the Association of Monterey Bay Area Governments has been designated by the Governor of the State of California as the Metropolitan Planning Organization (MPO) for the Monterey Bay area; and

WHEREAS, Title 23 Code of Federal Regulations, Part 450, and Title 49 Code of Federal Regulations, Part 613, require that in each urbanized area, as a condition to the receipt of Federal capital or operating assistance, the MPO carries out, in cooperation with State, local agencies and publicly owned operators of mass transportation services, a continuing, cooperative and comprehensive transportation planning process that results in plans and programs consistent with the comprehensively planned development of the urbanized area; and

WHEREAS, the Infrastructure Investment and Jobs Act (IIJA) calls for the development of at least a four-year Transportation Improvement Program (TIP), under direction of the MPO in cooperation with State and local officials, regional and local transit operators, and other affected transportation and regional planning and implementing agencies; and

WHEREAS, AMBAG has developed a four-year program of projects, consistent with AMBAG's *2045 Metropolitan Transportation Plan/Sustainable Communities Strategy*, the *2024 State Transportation Improvement Program*, the *2024 State Highway Operation and Protection Program*, and the area's Regional Transportation Improvement Programs and Short Range Transit Plans; and

WHEREAS, this document does not interfere with the timely implementation of the Transportation Control Measures (TCMs) contained in the State Implementation Plan (SIP); and

WHEREAS, this document complies with the public participation process in accordance with AMBAG's 2023 Public Participation Plan (PPP); and

WHEREAS, this document is financially constrained and prioritized by funding year, adding only those projects for which funding has been identified and committed in accordance with 23 CFR 450; and

WHEREAS, projects in the document satisfy the transportation conformity provisions of 40 CFR 93.122(g) and all applicable transportation planning requirements per 23 CFR Part 450 and are expected to support the establishment and achievement of performance management targets; and

WHEREAS, consultation with cognizant agencies was undertaken and the MTIP was considered with adequate opportunity for public review and comment, in accordance with 23 CFR 450:

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Association of Monterey Bay Area Governments does hereby approve and authorize the submission of the *Monterey Bay Metropolitan Transportation Improvement Program FFY 2024-25 to FFY 2027-28* to the appropriate Federal and State agencies.

PASSED AND ADOPTED this 11th day of September 2024.

Mary Ann Carbone, President

Maura F. Twomey, Executive Director

Notice of Public Review, Comments and Hearing

The Association of Monterey Bay Area Governments (AMBAG) invites the public to comment on the **Draft Monterey Bay Metropolitan Transportation Improvement Program (MTIP): FFY 2024-25 to 2027-28**.

The **Draft Monterey Bay MTIP: FFY 2024-25 to 2027-28** is the region's short range transportation programming document that contains transportation improvement projects including public mass transit, highway, bridge, local road, bicycle and pedestrian projects proposed for funding based on anticipated available federal, state and local funding over the next four years (FFY 2024-25 to 2027-28).

The public review and comments period **starts August 1, 2024 and ends August 30, 2024**. A copy of the Draft Monterey Bay MTIP: FFY 2024-25 to 2027-28 is available at the following website links listed below:

1. Association of Monterey Bay Area Governments: www.ambag.org
2. Santa Cruz County Regional Transportation Commission: www.sccrtc.org
3. Transportation Agency for Monterey County: www.tamcmonterey.org
4. Council of San Benito County Governments: www.sanbenitocog.org
5. Monterey-Salinas Transit: www.mst.org
6. Santa Cruz Metropolitan Transit District: www.scmttd.com

Written comments may be submitted to Will Condon, AMBAG Office at: 24580 Silver Cloud Court, Monterey, CA 93940, faxed at 831-883-3755 or e-mailed to wcondon@ambag.org. Written comments must be received at AMBAG no later than **5 p.m. on Friday, August 30, 2024**.

This public notice of public involvement activities and time established for public review and comments on the MTIP development process will also satisfy the FTA's Program of Projects requirements.

A public hearing will be conducted **on Wednesday, August 14, 2024 no sooner than 6:00 pm** at the AMBAG Board of Directors' regular meeting. Information regarding the AMBAG Board of Directors' public hearing is available at: www.ambag.org.

Persons who wish to address the AMBAG Board of Directors on an item to be considered at this public hearing are asked to submit comments in writing at info@ambag.org by 5:00 pm on Tuesday, August 13, 2024 or provide verbal comments during the public hearing.

To join the August 14, 2024 AMBAG Board of Directors meeting via Zoom, please use the following link:
