# 2050 MTP/SCS Update

**Heather Adamson, AICP**  
**February 12, 2025**

ASSOCIATION OF MONTEREY BAY  
AREA GOVERNMENTS

## Background

- Long range plan for transportation investments
- Federal and state law requires that an MTP/SCS be prepared every four years
- Must provide a 20+ year horizon planning period
- Detailed work program and schedule approved in April 2023
- 2050 MTP/SCS scheduled for adoption in June 2026
- Highlight a number of key components completed and currently under development

**Vision:** An accessible and connected region for a safe, resilient, and equitable future

## Performance Measures

- Allows us to quantify regional goals, estimate the impacts of proposed investments, and evaluate progress over time
- 2050 MTP/SCS performance measures were approved in April 2024
- Finalizing the data needed to calculate the performance measures to be included in the 2050 MTP/SCS

## Transportation Project Lists

- AMBAG worked with the RTPAs, transit operators, Caltrans, and local jurisdictions to finalize the draft project list for the 2050 MTP/SCS
- Project list updates including revising existing 2045 MTP/SCS projects, adding new projects or identifying those projects that have been completed since the last MTP/SCS
- An updated project list has been submitted from each RTPA to AMBAG for inclusion in the MTP/SCS

## Financial Assumptions

- Developed financial assumptions for the MTP/SCS through 2050
- Reasonably available local, state, and federal funding
- \$15.5 billion (2025 \$)

## Draft 2050 MTP/SCS Revenues

| \$\$ Billion       |        |
|--------------------|--------|
| Monterey County    | \$7.3  |
| San Benito County  | \$1.9  |
| Santa Cruz County  | \$6.3  |
| AMBAG Region Total | \$15.5 |

- PlaceTypes are a set of land use designations common to general plans for all local jurisdictions in the AMBAG region
- PlaceTypes Maps
  - Update for 2022, 2035, and 2050
  - Local jurisdictions provide input on changes
  - Will be analyzed using the new land use model

## Opportunity Areas

- Opportunity Areas are locations that have the highest opportunity for successful sustainable growth
  - Generally located where transit priority areas and economic development areas overlap
  - Existing/Planned or Potential
- AMBAG is working with local jurisdictions to update the Opportunity Areas maps for existing/planned and potential areas
- Will use similar update process as PlaceType maps

## Revenue Constrained Scenario

- Revenue Constrained Scenario = transportation projects + land use
- Evaluate using the Regional Travel Demand Model and Board approved performance measures
- Basis for the 2050 MTP/SCS and its EIR

## Public Involvement

- Continue to implement the outreach strategies included in the Board adopted Public Involvement Plan
- Public workshops and other outreach activities will be held in spring 2025 on the development of the 2050 MTP/SCS

## Next Steps

- Continue to implement the 2050 MTP/SCS work plan components, including finalizing the project list and land use mapping for the Draft 2050 MTP/SCS and conduct public outreach activities
- Staff will be back to the Board of Directors periodically this spring for input and direction
